

Real estate investment
in the blockchain era.

IMO as a problem solver.

Real estate has always been a pillar of investment but it comes with three main issues.

- 1 Limited access for small investors.
 - 2 Lack of liquidity and flexibility.
 - 3 Complexity of transactions and management.
- 

By using blockchain, IMO solves the issues of traditional real estate investment.

The ultimate RWA system.

IMO is a simple and intuitive way to invest in real estate by allowing the acquisition of IMO tokens, offering indirect exposure to the real estate market without the traditional constraints.

1 Real Estate Acquisition

The company behind the IMO project acquires rental properties through various financing methods. All properties are financed through a combination of funds raised via IMO tokens and bank loans, ensuring a balanced and scalable investment strategy.

2 Rental Income Generation

The acquired properties are rented out, generating consistent rental income. The focus on diversification—across property types and regions—helps mitigate risks like vacancy or economic downturns.

3 Token Buyback and Burning

Rental income, after deducting expenses is reinvested into the ecosystem by purchasing \$IMO tokens on the market at current prices. These purchased tokens are sent to a designated burn address, permanently removing them from circulation. This process, conducted monthly, reduces the total supply of tokens, creating a deflationary effect.

4 Value Appreciation

The combination of reduced token supply and consistent buyback activity creates upward pressure on the token's market value. Investors benefit indirectly through this value appreciation, as the reduced availability of tokens increases their demand.

∞ Repeat. For ever and ever.

The IMO system is unstoppable—designed to thrive indefinitely, built to succeed today, tomorrow, and for generations to come. With every property acquired, the ecosystem grows stronger, generating more income to be reinvested, fueling constant value growth. The longer it operates, the greater its momentum, creating a cycle of success that every investor can be part of.

So much power on a single token.

RWA token

The intrinsic value comes from a real-world real estate portfolio that will continuously grow, always adding more value to the token.

Investment accessible to all

By buying the IMO token, you acquire indirect exposure to the real estate market from just \$1.

Deflationary token

20 million \$IMO initially, and always fewer over time.

Top blockchain

Available on the Base blockchain, the best L2 on Ethereum. Secure, fast, ultra-low fees, and built by Coinbase.

\$IMO

One click to invest in real estate.

Before IMO

- View property listings
- Negotiate the purchase price
- Administrative delays
- Notarial formalities
- Hold the minimum equity capital
- Organize financing
- Find and manage tenants
- Tax management
- Co-ownership management
- Track profitability
- Maintenance
- Renovation work
- Interest rate risks

INVEST

Safety first.

From the beginning, security and transparency have always been IMO's top priorities.

Limited and deflationary supply

20 million \$IMO initially with no possibility of creating more.

Locked liquidity and team tokens

The project's liquidity is locked on the blockchain, just like the team's tokens, which are gradually unlocked.

Team

A team of experienced professionals—public, fully transparent, and accessible.

Smart contract audits

The various contracts related to the token and its functionalities are public and audited.

Our vision.

Never stop growing

Always acquire more properties,
always collect more rent,
always buy back more IMO,
always burn more IMO.

Expansion of real estate activities

From construction to management, including buying and selling, all these real estate activities will generate revenue that will be directly reinvested into the IMO token.

Becoming leaders

We aim to become the benchmark in the RWA (Real-World Assets) sector as well as in traditional real estate. Time will prove our ambitions right.

Implementation of real estate-related features for IMO investors

IMO is the ultimate investment tool. In addition to the appreciation of the IMO token that investors will benefit from, we will provide them with exceptional advantages.

We were here 4 years ago,
we are still here today,
and we will be here in 50 years.

Go further.
